

Toxics Reduction Act Public Annual Report - Calendar 2020

The legal and trade names of the owner and the operator of the facility, the street address of the facility and, if the mailing address of the facility is different from the street address, the mailing address.(See below)

Kaiser Aluminum Ltd.	
3021 Gore Road	
London	ON
N5V 5A9	

Facility NPRI identification number

5649

The identification number assigned to the facility by the Ministry of the Environment for the purposes of Ontario Regulation 127/01.

-

Number of full-time employees

210

North American Industry Classification System (NAICS) - 2, 4, and 6 digit codes

31 - 33 Manufacturing
3313 - Alumina and aluminum production and processing
331317 - Aluminum rolling, drawing, extruding and alloying

If applicable, the name, position and telephone number of the individual who is the contact at the facility for the public:
Public Contact (if applicable)

Carlos Brooks
Health, Safety & Environmental Coordinator

2,3,4,6,7,8 - HxCDF	60851-34-5
1,2,3,4,6,7,8 - HpCDF	67562-39-4
1,2,3,4,7,8,9 - HpCDF	55673-89-7
OCDF	39001-02-0
Polychlorinated Dibenzo-P-Dioxins & Polychlorinated Dibenzofurans	NA - 11
Hexachlorobenzene	118-74-1
Particulate Matter $\leq 10 \mu\text{m}$ (PM ₁₀)	NA - M09
Particulate Matter $\leq 2.5 \mu\text{m}$ (PM _{2.5})	NA - M10

Plan Objectives

The reduction of toxic substance use, creation and releases is a priority for Kaiser Aluminum forming part of their sustainability programs and EMS. Their goal is to reduce the creation and release of Zinc and its compounds, Hexachlorobenzene, Polychlorinated Dibenzo-P-Dioxins & Polychlorinated Dibenzofurans and their 17 congeners, PM₁₀, and PM_{2.5} where technically and economically feasible. No technically and economically feasible reduction options for these substances were identified. Kaiser Aluminum will continue to monitor new technological advancements to ensure that reductions options that are both technologically and financially viable are implemented at their facility.

Toxics Reduction Progress

Overall the quantities of dioxins, furans, Hexachlorobenzene, PM₁₀ and PM_{2.5} created and released by the facility decreased due to a decrease in the facility's overall production in 2020. The decreased quantities of Zinc released to air, used, and contained in-product are the result of a decrease in the production of various zinc containing alloys produced. The decreased quantity of Zinc recycled is due to a decrease in the quantity chip and dross waste produced during the calendar year.

Plan Implementation Progress

There were no reduction options identified in any of the plans for the above noted substances that were identified as being both technically and economically feasible. As such, there were no timelines presented in the reduction plans for the above noted substances. However, Kaiser will continue to monitor new technological advancements to ensure that reduction options that are both technologically and financially viable are implemented at their facility.

As there were no anticipated reductions noted in each of the plans for the toxic substances noted above, there were no reductions of any toxic substances during the reporting period that would be attributable to any reduction plan.

Certification Statement

As of September 14, 2021, I certify that I have read the reports on the toxic substance reduction plans for Zinc and its compounds, Hexachlorobenzene, Polychlorinated Dibenzo-P-Dioxins & Polychlorinated Dibenzofurans and their 17 congeners, PM10, and PM2.5 and am familiar with their contents and to my knowledge the information contained in the report is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under the Act.

The original version of this report is signed off by:

I, the highest ranking employee, agree with the certification statement(s) above and acknowledge that by checking the box I am electronically signing the statement(s). I also acknowledge that by pressing the 'Submit Report(s)' button I am submitting the facility record(s)/report(s) for the identified facility to the Director under the Toxics Reduction Act, 2009. I also acknowledge that the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 provide the authority to the Director under the Act to make certain information as specified in subsection 27(5) of Ontario Regulation 455/09 available to the public.
